Message

I congratulate FINACT for organising a cricket tournament in Canberra, which has become an important event due to its successful conduct over the years.

India and Australia share love and passion for the game of cricket, which brings the people from both countries together. Therefore, the efforts of FINACT in bringing people together through this great game will further enhance our ties.

It was heartening to see the enthusiastic response from the community to this endeavour of FINACT.

I wish all the best to the organisers to continue this tradition of organising cricket tournament.

(Biren Nanda)
